

A.C. COMPRESSOR MOUNT 122L

**Big Block Chevy - Long Water Pump
Driver's Side - Wide Mount**

NOTE: Some heads have 3/8" bolt holes and some have 7/16". This kit includes both sizes of bolts for these holes.

If your head has 7/16" it will be necessary to enlarge the corresponding holes in the mount to 7/16".

When installing the mount, start all bolts and mount the compressor before tightening.

We use a belt length of 58 1/2" - 59 1/2" in our shop: However this may vary due to the diameter of your pulleys.

As with any part of this nature, make sure it fits your application before painting or plating. Parts that have been painted, plated, or modified may not be returned.
