NOTE: This application will require the use of a wide GM alternator pulley to accommodate the 5/8" width drive belt. These pulleys are available from Speedway Motors or other street rod vendors.

We use a belt length of 55 7/8" (NAPA part# 22553) in our shop; However this length may vary depending on your pulley diameters and application.
Alternator Mount
Part # 241
Flathead Ford/Mercury Early Wide Belt
1937-48 Car and 1937-47 Truck
