

Power Steering Pump Mount 422L 348-409 Chevy

We use a belt length of 36 - 36½" with this mount on installations in our shop. However; this can vary with the diameter of your pulleys.

This bracket is designed for the G.M. remote reservoir type 2 pump G.M. Part No. 26048280, Durex Part No. 6319, ATSCO Part No. 6319. Also available in aluminum from Mullins Steering Gears Part No. 800301 Plain, 800302 Polished. This bracket requires the use of an aluminum V-belt pulley available from Us, Southern Rods & Parts, Street & Performance or their dealers.

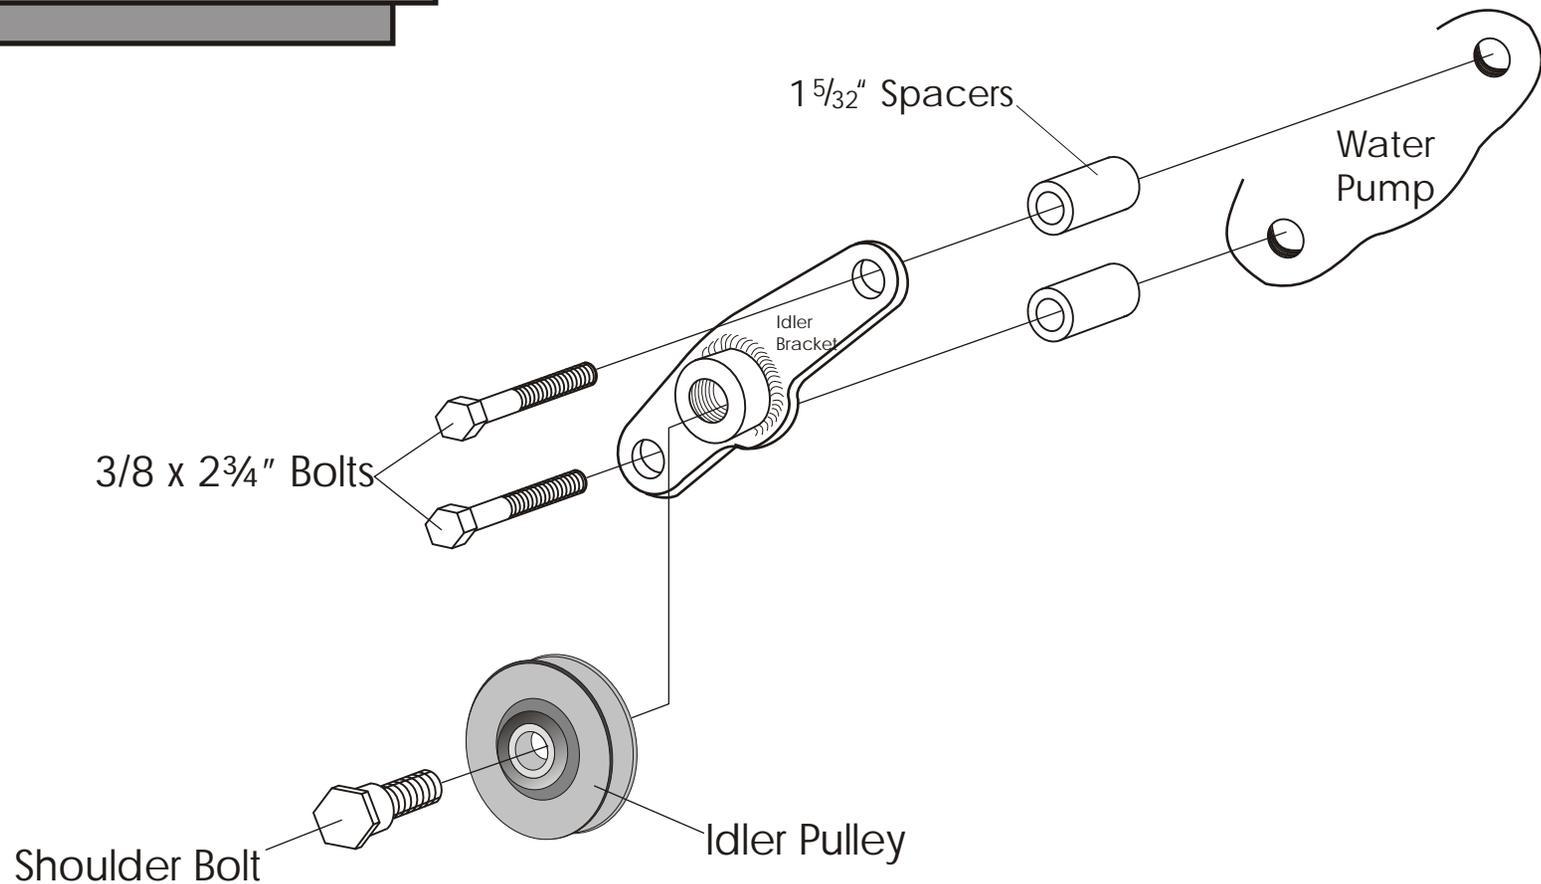

Note: If your pump has threaded mounting holes it will be necessary to drill them to 5/16."

As with any part of this nature, make sure it fits your application before painting or plating. Parts that have been painted, plated, or modified may not be returned.

Idler Assembly 4221

348-409 Chevy

If using this Idler assembly with part number 226L, We use a belt length of 61 - 62" on installations in our shop. However; this can vary with the diameter of your pulleys. If using part number 238L use the recommended belt length listed in the 238L hardware kit.

As with any part of this nature, make sure it fits your application before painting or plating. Parts that have been painted, plated, or modified may not be returned.
